

Jordan Bortolotti

EXPERIENCE

NOKIA | FULL-STACK DEVELOPER

May 2015 – Present | Ottawa, ON, CA

- Software / Web developer where I deploy new products to customers on very short-term cycles.
- Belonging to a smaller tiger team that is tasked with creating the newest generation of our product.
- Monitor and manipulate network data from ISP customers and generate reports to help them make business decisions.

UNIVERSITY OF WINDSOR | TEACHING ASSISTANT

April 2014 – April 2015 | Windsor, ON, CA

- Taught students the concepts of programming in C and evaluated their assignments.
- Developed my communication skills by leading discussions and problem resolution within Computer Science.

NOKIA | APPLICATIONS ENGINEER

Jan 2014 – April 2014 | Ottawa, ON, CA

- Worked on an IP network management product team of engineers.
- Contributed with Python and Bash for script building, SQL Oracle DB querying, and Java for JVM thread debugging.
- Created a useful data scraper for future student interns.

GREEN SHIELD CANADA | SOFTWARE DEVELOPER

April 2013 – Aug 2013 | Windsor, ON, CA

- Contributed to a development team dedicated to hot fix changes for in-house software and customer applications. Pushed numerous changes to QA and then production servers.
- Helped build the current Green Shield university benefits opt-out website used by schools across Canada.
- Used C#, ASP.NET, TFS, and PL/SQL to create an automated date updater for new client benefits.

EDUCATION
